Indoor Plumbing Leak Detection Kits

WIDE-AREA LEAK DETECTION SOLUTIONS

RSC-900-x *Wireless System with Optional Automatic Shut-Off*

- Smartphone app-based system management and notifications
- Includes hub, (2) wireless water sensors and optional shut-off valve/actuator
- Supports up to 64 total wireless devices (sensors, actuators, repeaters)
- Cloud-based Central Monitoring Station available for commercial property managers and remote service providers

MODEL #:
RSC-900-AW-1/2
RSC-900-AW-3/4
RSC-900-AW-1
RSC-900-AW-1-1/4
RSC-900-W *(no shut-off valve)*

RS-080-x *Commercial System with Automatic Main Shut-Off*

- Alarm box with reset button and dry contact output
- (1) magnetized water sensor with 8' lead
- Commercial-grade, lead-free, full-port automatic water shut-off valve; butterfly valve for large-diameter sizes 2-1/2" and up (shown at far right)
- Add up to 6 wired sensors to kit
- Plenum kits available with plenum-rated wires and step-down transformer (120/208/240V AC to 24V AC); add -MK6 to any model number

MODEL #:
RS-080-3/4
RS-080-1
RS-080-1-1/2
RS-080-2
RS-080-2-1/2
RS-080-3
RS-080-4

FLOODMASTER DEDICATED-USE LEAK DETECTION KITS

RS-094-x *Water Heater Leak Detection & Automatic Shut-Off*

- Integrated alarm box and automatic shut-off valve with reset button and dry contact output
- (1) magnetized water sensor with 8' lead
- Plenum kits available with plenum-rated wires and step-down transformer (120/208/240V AC to 24V AC); add -MK6 to any model number
- Other modified kits are available with 3/4" valves to address specific code or application requirements, including: low-profile tanks (-MK1); power vent electrical shut-off (-MK4); and gas flow interrupter (-MK5) or gas interface cable (-MK7) to cut off the pilot light and stop gas flow to the tank's burners

MODEL #:
RS-094-1/2
RS-094-3/4
RS-094-1
RS-094-1-1/4

RS-090-E *Washing Machine Leak Detection & Automatic Water Shut-Off System*

- With integrated outlet box for easy installation
- Built-in water hammer arrestors
- Includes (1) magnetized wired water sensor and alarm box
- 1/2"-14 straight pipe thread (supply line) and 3/4"-11.5 GHT (feed line)

MODEL #:
RS-090-E

Indoor Plumbing Leak Detection Kits

FLOODMASTER DEDICATED-USE LEAK DETECTION KITS

RS-092-x *Hose-Fed Appliance Leak Detection & Automatic Shut-Off System*

- Great for dishwashers, ice makers, RO systems, beverage dispensers, etc.
- Includes sensor rope and brass compression fittings
- MK1 kit with plug-in transformer; MK2 kit step-down transformer (120/208/240V AC to 24V)
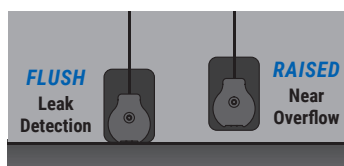

MODEL #:
RS-092-1/2-MK1
RS-092-1/2-MK2

RS-096 *Leak Detection Alarm with NO Water Shut-Off*

- Includes (1) 8' magnetized wired sensor and alarm box with dry contact output
- Sensor can easily be installed at an elevated height to monitor for near-overflow of air conditioning, HVAC, HVACR or water chiller condensate pans
- Plenum kit available with plenum-rated wires and step-down transformer (120/208/240V AC to 24V AC); order model # RS-096-MK6

MODEL #:
RS-096

FLUSH Leak Detection

RAISED Near Overflow

EXTRA SENSORS & ACCESSORIES

For RSC-900-x Wireless Systems

Wireless Sensors

Sensor with 200' range RSC-900-W-001
Rope-style sensor RSC-900-W-175
10' rope sensor extension kit RSA-175-010

Wireless Signal Repeater

Max. 4 per system RSC-900-X-200

Wireless Actuator & Shut-Off Valve

1/2", 3/4", 1" or 1-14" valve RSC-900-W-310-xxx

For FloodMaster RS-0xx Systems

Wired Sensors

Sensor with 8' wire lead RSA-101-008
Sensor with 25' wire lead RSA-101-025
Sensor with 50' wire lead RSA-101-050
Sensor with 100' wire lead RSA-101-100

Wireless Rope Sensor Kit

- Includes 6' lead wire and 10' rope sensor
  Model # RSA-175-810
- Attach up to 9 additional 10' extension kits to create 100' of coverage
  Model # RSA-175-010

Visit RelianceDetection.com for a full listing of available accessories.

Three-year manufacturer's warranty on all products.
